

Sunright Corporate Press Release

SUNRIGHT'S REGIONAL EXPANSION

Singapore, June 11 1997 – Sunright announces the establishment of a new facility in Kwai Chung, Hong Kong with an initial investment of S\$ 4 million. The facility which provides burn-in of semiconductor chips, occupies 14,000-sq. ft. production area. The Hong Kong facility is part of Sunright's strategic regional expansion plan following the set up of a subsidiary in the Philippines two months ago.

Mr. Sam Lim, Executive Chairman & Chief Executive Officer said, "more manufacturers are transferring their operations to China. Being customer driven we have to move closely with our customers. Sunright sees this Hong Kong facility as its first step towards the greater China market".

Mr. Lim added, "after Hong Kong, our next plan of expansion is in Korea, known to be one of the world's largest producer of memory chips".

The Asia Pacific market, excluding Japan, is projected to remain the world's fastest growing sector, surpassing Europe as the third largest market this year as well as eclipsing Japan as the second largest in 1999.

The Hong Kong facility is not expected to have any material effect on either the earnings per share or net tangible asset value per share of Sunright for the year ending 31st July 1997.

About Sunright

Sunright Limited, a main board listed company on the Singapore Exchange Securities Trading, is the world's largest independent provider of burn-in and test services, and a leading manufacturer of parallel test and burn-in systems. Sunright also distributes high technology equipment and materials and engages in selective OEM assembly of electronic components. It has a total workforce of 2,500 employees with annual revenue in excess of S\$ 100 million. Sunright's customers include multi-national semiconductor manufacturers, namely AMD, Hyundai, Hewlett-Packard, Infineon, Motorola, NEC, National Semiconductor, Texas Instruments, Toshiba and others.
