

Sunright Corporate Press Release

SUNRIGHT COMPLETES ACQUISITION OF SHARES IN TEST COMPANIES

Singapore, April 28, 1999 – Sunright Limited (“Sunright”) announced today that the company has completed the purchase of 156,800 shares in KES Rood Technology Taiwan Ltd (“KRTT”) and 152,308 shares in KESM Rood Technology (Malaysia) Sdn Bhd (“KRTM”) from Rood Testhouse International N.V. (“RTI”).

Mr. Sam Lim, Executive Chairman & Chief Executive Officer of Sunright commented, “we are happy to announce the conclusion of this transaction, which we believe will have far reaching and positive impact on Sunright’s test business on a long term basis”.

The acquisition cost, loans and reimbursements of these companies are approximately S\$ 4 million. This strategic acquisition of the test business in Malaysia and Taiwan as well as in Singapore which was completed earlier in August 1998, complements Sunright’s burn-in operations.

Mr. Sam Lim added, “we can now focus our attention on increasing the competitive profile of both businesses in the semiconductor service sector”.

By combining both burn-in and testing, Sunright offers total test solutions which enable its customers to compress the overall manufacturing cycle, enabling them to bring new products to market faster and in greater volumes.

Sunright is today the largest independent supplier of burn-in and test service in the world, with operations across Singapore, Malaysia, Taiwan, Hong Kong, China, The Philippines and United States.

Mr. Lim remarked, “our customers are demanding more integrated services for their processes and this integration of test and burn-in is critical. By strengthening our stronghold in this region, Sunright intends to stay in the leading position”.

About Sunright

Sunright Limited, a main board listed company on the Singapore Exchange Securities Trading, is the world’s largest independent provider of burn-in and test services, and a leading manufacturer of parallel test and burn-in systems. Sunright also distributes high technology equipment and materials and engages in selective OEM assembly of electronic components. It has a total workforce of 2,500 employees with annual revenue in excess of S\$ 100 million. Sunright’s customers include multi-national semiconductor manufacturers, namely AMD, Hyundai, Hewlett-Packard, Infineon, Motorola, NEC, National Semiconductor, Texas Instruments, Toshiba and others. More information on Sunright is available on Sunright’s website: www.sunright.com.
